

AUTOMATION THAT BRINGS FAMILIES TOGETHER

ABOUT US:

Escozor is focused on transforming modern living through smart home automation solutions that combine technology, convenience, and design. Established in 2004 with a manufacturing unit in Gandhinagar, the journey began with push button switches and evolved into touch switches, retrofit devices, and smart glass panels.

With a strong focus on quality and innovation, Escozor continues to create intelligent solutions that enhance comfort, control, and everyday living.

OUR STORY

Driven by innovation and precision, Escozor has built a strong foundation with advanced in-house manufacturing capabilities. Equipped with automated systems such as robotic machinery, optical inspection systems, automatic testing units, and pick & place machines for SMD components, the process ensures high efficiency and accuracy.

With technologies like laser marking, laser cutting, selective soldering, wave soldering, and automated assembly for DIP components, every product is crafted with consistency and quality. This commitment to advanced manufacturing enables Escozor to deliver reliable and future-ready home automation solutions.
